Overview: What is it about?

Windowmaker software offers an ability to export the details of glazing in electronic format that can be shared easily with the glass supplier. Electronic Glass order can be generated in the following formats as needed:

- XML
- Albat+Wirsam format

```
<?xml version="1.0" encoding="ISO-8859-1" ?>
<!DOCTYPE Order SYSTEM "glazing.dtd">
<!-- "http://www.windowmaker.com/xml/glazing.dtd" -->
<!-- Created by Windowmaker 7.2.3 -->

Benefits and Features: Why use this option?

▲ Avoid mistakes related to dimensions of the glass to be ordered

▲ Save time and money
- e-transfer the order to the glass supplier
- Eliminate the need to send the glass order in hardcopy or via fax

▲ Improved delivery times for the glass supplier result in lesser lead times for you

▲ The orders are archived for easy reference in future
