

Mobile App Developer

We require a Techno Commercial Mobile App Developer to join our App team.

If you're passionate about mobile platforms and translating code into user-friendly apps, we would like to meet you. As a Mobile developer, you'll collaborate with internal teams to develop functional mobile applications, while working in a fast-paced environment.

Responsibilities

Key Responsibilities in the role:

- Discussing the client's requirements and the proposed solution with colleagues
- Support the entire application lifecycle (concept, design, test, release and support)
- Produce fully functional mobile applications writing clean code
- Gather specific requirements and suggest solutions
- Write unit and UI tests to identify malfunctions
- Troubleshoot and debug to optimize performance
- Design interfaces to improve user experience
- Liaise with Product development team to plan new features
- Ensure new and legacy applications meet quality standards
- Research and suggest new mobile products, applications and protocols
- Stay up-to-date with new technology trends
- Working closely with colleagues to constantly innovate app functionality and design

Requirements

- At least 2-3 years' experience of developing mobile applications on either iOS or Android or both platforms.
- Must have published examples of mobile applications on iTunes and/or the Google App Store
- Must have development experience on both tablets and phones and have a solid understanding of those platforms.
- Strong object oriented design and UI programming skills highly desired
- In-depth knowledge of at least one programming language like Swift and Java
- Hands on experience working with remote data via REST, JSON, XML
- Experience with third-party libraries and APIs
- Familiarity with OOP design principles
- Excellent analytical skills with a good problem-solving attitude
- Expert knowledge of database modeling and data structure principles, techniques and best practices
- Experience with video playback on mobile devices is a plus
- Ability to perform in a team environment
