

Moving to Windowmaker Cloud

Making the switch to our Cloud based solutions brings a host of benefits. This comparison will show you the main advantages of cloud vs on-premise deployment as well as some Windowmaker specific advantages below.

Solution	 OnPremise	 Cloud
Deployment	❌ Time Consuming & Costly	✅ Quick & Cost Efficient
Accessibility	❌ On-site Only	✅ Anywhere With an Internet Connection
Scalability	❌ More Hardware Required	✅ Just Add More Seats
Integrations	❌ Limited	✅ Documented API
Upgrades	❌ On Each Machine, Lengthy	✅ Over the Cloud, Automatic
Maintenance	❌ Hardware Needs Maintaining	✅ Servers Maintained by Microsoft
Internal Resources	❌ Dedicated IT Team Required	✅ Minimal Resources Required
Security & Backups	❌ Responsible for Own Data	✅ Microsoft Azure Security & Backups
Required Investment	❌ Significant Upfront Cost	✅ Low Monthly Payments

Key Benefits of Windowmaker Cloud

- Intuitive interface - Windowmaker Web, browser-based solution.
- Powerful configurator - all the power and flexibility of Windowmaker.
- Scalability - the same great depth of functionality minus the server-side restrictions.
- Robust security and compliance features - provided by Microsoft Azure.
- Seamless integration with Windowmaker Cloud database for a unified user experience - data integrity maintained.
