Windowmaker 2024 R1.1

General Enhancements

Manufacturing - Production batches - Frame Production - 38478

<Any> is now available as an alternative saw. Selecting <Any> will list all valid saws for the site on the Frame Production dialog while processing a Production Batch

Enhancements to Options

Link to Saws

Windowmaker now links to CCN500 machine

Windowmaker now links to FENSTEK-LJB2B Double Head Cutting Saw

Issues Fixed

Sales - Order Entry - Sales Lines - Calculation - 41423

Upon opening the sales line, the Answer-value of a Size type option became incorrect if it exceeded 3276. This problem is fixed now.

Sales - Order Entry - 40718

Sales Header Taxes were not getting calculated in quotes and orders that were synchronized from Sales Client data. This problem is now fixed.

Sales - Order Entry – Sales Lines - 41504

Single line Production Note and Installation Note did not get copied while converting a Sales Quote to Sales Order or while copying the sales lines within the Sales Quote/Order. This problem is fixed now.

Manufacturing – Production Batched - 41462

There was a mismatch in the Allocation Quantity and Deallocation quantity of Stock transactions for the sales lines in a 'Stage' sub order when lines of scheduled sub-orders were edited. This issue is now corrected.

Products - System - Rules - 41422

If negative Answer values of a 'Hidden & Changeable' Size type option were set in rule conditions or as Default or Auto values, they got corrupted if this setup was done in a version prior to Windowmaker 2018 R2.3. This could have resulted in incorrect calculation results. This is now corrected.

Products - Parts - 48630

An error 'Non-valid product type' occurred during "Import Spreadsheet" or "Import Updates" in any non-English program. This is now fixed.

Database Schema Changes

Changes specific to database tables are as listed below:

Table	Column	Change
WMSalesHeaderAnalysis	RowGUID	Added
